Agent and Broker Program Overview

- » The Plan Year (PY) 2023 Open Enrollment Period (OEP) was the strongest year yet for agents and brokers assisting consumers through the Marketplace.
- » Agents and brokers assisted over 2.2 million new consumers during the PY 2023 OEP.
- » Agents and brokers also assisted over 4.6 million consumers who actively returned to the Marketplace during the PY 2023 OEP.

- » Combined, the Classic Direct Enrollment (DE) and Enhanced Direct Enrollment (EDE) pathways were utilized for 81% of all active agent-and-broker-assisted plan selections during the PY 2023 OEP, up from 72% in PY 2022 OEP.
- » These DE/EDE pathways accounted for nearly 5.5 million active agent- and broker-assisted plan selections.

Key CMS Priorities for Agents and Brokers

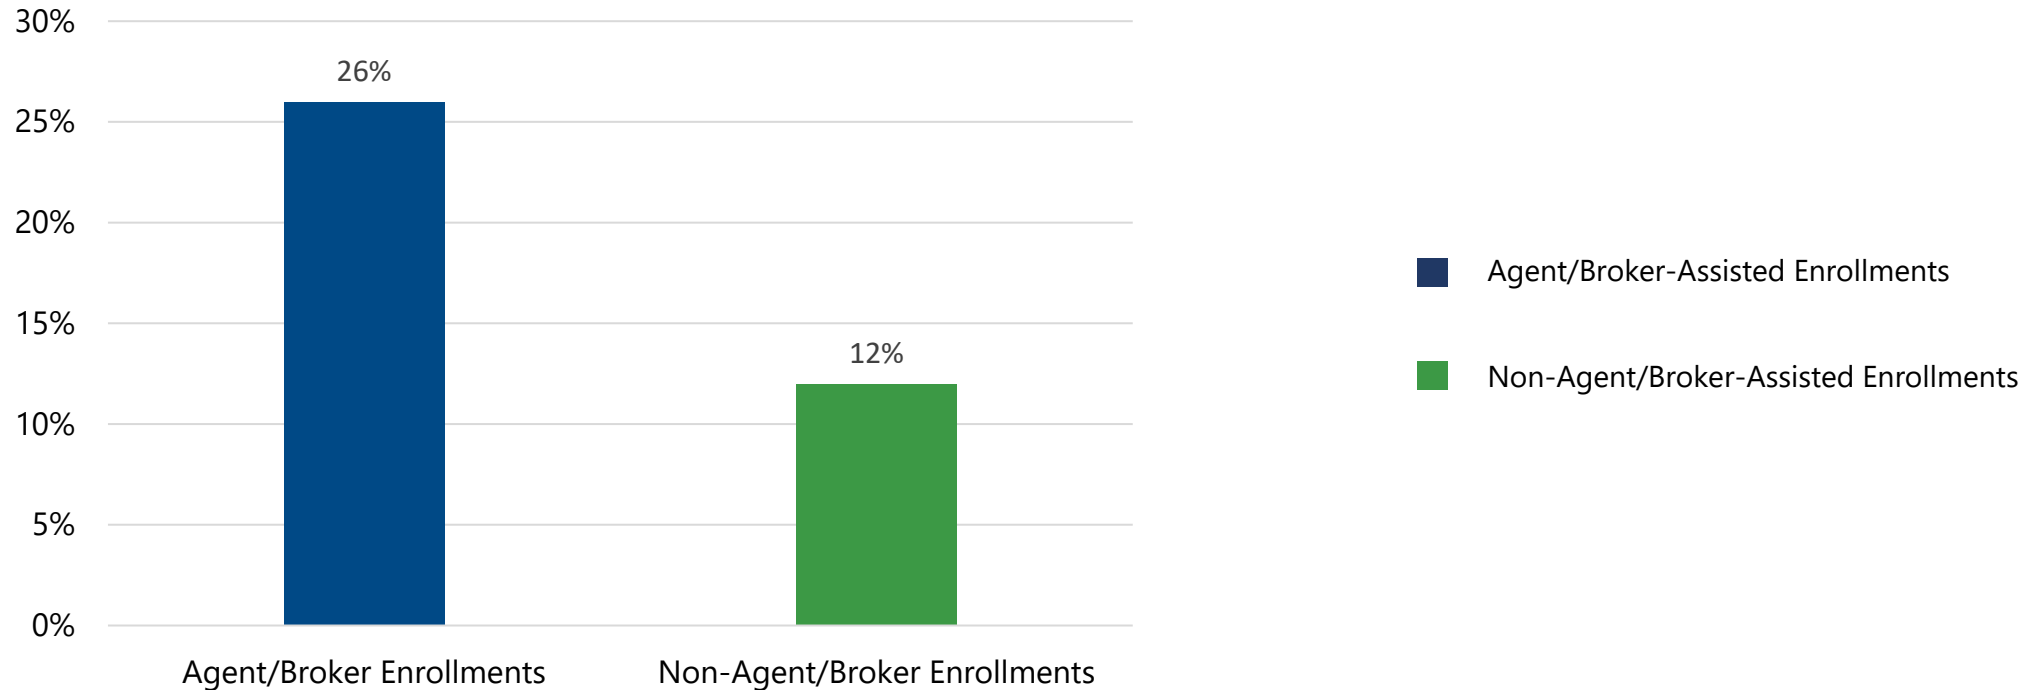

CMS has identified key priorities for agents and brokers to meet the goals identified by our strategic vision.

These priorities will enable more consumers to obtain affordable health coverage.

- » Supporting transitions in coverage and Medicaid Unwinding
- » Helping cost-sharing reduction (CSR)-eligible consumers select silver plans
- » Preventing duplicate applications
- » Preventing and resolving data matching issues (DMIs)
- » Reaching underserved and underinsured communities
- » Completing the race/ethnicity questions on Marketplace applications
- » Maintaining compliance with Marketplace requirements

Agent and Broker Priority Areas for Improvement

DMI Generation Rates on Agent/Broker- and Non-Agent/Broker-Assisted Enrollments

- » During the PY 2023 OEP, agent-and-broker-assisted enrollments generated **high levels of DMIs**. These DMIs led to operational issues and in some cases **prevented** consumers from receiving coverage and financial assistance.
- » It is important to take steps as an agent or broker to both prevent DMIs and assist consumers in resolving them in a timely manner to ensure consumers continue to have access to healthcare coverage.

Social Security Number (SSN) DMIs

- » During the PY 2023 OEP, of consumers who made active plan selections:
 - 16% of those who worked with an agent or broker submitted Marketplace applications with missing SSNs.
 - Less than 1% of consumers who self-enrolled submitted applications with missing SSNs.
- » As a reminder, it is required for everyone applying for coverage to provide their SSN if they have one. Anyone applying for Marketplace coverage who does not provide their SSN on their Marketplace application will very likely receive a DMI.
- » If their DMI goes unresolved, the consumer can lose financial assistance and Marketplace coverage.

Agent and Broker Priority Areas for Improvement (continued)

Plan Year 2023 Percentage of CSR-Eligible Consumers Selecting Bronze Plans

During PY 2023, CSR-eligible consumers who worked with agents and brokers enrolled in bronze plans at a higher rate than those who self-enrolled in Marketplace coverage. Agents and brokers play an essential role in connecting consumers with quality, affordable coverage. Therefore, it is important for agents and brokers to understand the costs that could arise when their CSR-eligible clients are not enrolled in silver plans.

Medicaid Unwinding Period

- » The continuous enrollment condition ended March 31, 2023, meaning that states began to terminate Medicaid enrollment for individuals no longer eligible for Medicaid as early as April 1, 2023. This year-long process is referred to as “unwinding.”
 - The first renewals of Medicaid eligibility determinations began as early as February 1, with the first terminations effective as of April 1.
 - Consumers who receive advance notice that their Medicaid coverage is ending may start the process of enrolling immediately in other coverage, such as on the Marketplace, to avoid gaps in coverage.
- » Consumers who lose Medicaid or Children’s Health Insurance Program (CHIP) coverage between March 31, 2023, and July 31, 2024, will be eligible for a Special Enrollment Period (SEP) between the same dates. Consumers will be determined eligible for the Unwinding SEP based on their answers to application questions regarding their recent loss of coverage.
- » Agents and brokers should prepare to help these consumers as they transition in coverage types by:
 - Updating your marketing and advertising strategies to reach new consumers.
 - Ensuring you have sufficient staff to assist the increased number of consumers during the entire unwinding period.
 - Listing your information on Find Local Help and participating in Help On Demand.

Medicaid Unwinding Period: Agents and Brokers Should Be Ready to Help

- » Agents and brokers should prepare to help these consumers as they transition in coverage types by:
 - Updating your marketing and advertising strategies to reach new consumers.
 - Ensuring you have sufficient staff to assist the increased number of consumers during the entire unwinding period.
 - Listing your information on Find Local Help and participating in Help On Demand.
