Group Performance Information on Medicare Care Compare
Performance Year 2018

Overview

This document summarizes the group performance information and plain language measure and activity titles[1] that are publicly reported on Medicare Care Compare and in the Provider Data Catalog (PDC).[2] Care Compare and the PDC publicly report group performance information from the 2018 Quality Payment Program. Information may be publicly reported on group profile pages or only in the PDC. Performance information that meets statistical public reporting standards (valid, reliable, comparable, and meet the minimum reliability threshold) will be included in the PDC.[3] A subset of this information is available on Care Compare profile pages. Any information publicly reported on profile pages must also resonate with patient and caregivers, as shown through user testing.

For questions about public reporting for doctors and clinicians, visit the Physician Compare Initiative page or contact us at PhysicianCompare-Helpdesk@AcumenLLC.com.

[3] MIPS Quality and MIPS Cost measures in their first two years of use will not be publicly reported on Care Compare and in the Provider Data Catalog (§414.1395(c)).

Publicly Reported Performance Information

The 2018 Quality Payment Program performance information publicly reported on Care Compare and in the PDC includes Merit-based Incentive Payment System (MIPS) and QCDR quality measures; CAHPS for MIPS summary survey measures; MIPS Promoting Interoperability measures and attestations; and MIPS Improvement Activities attestations; and performance category and final scores.

MIPS Quality Measures

Care Compare is publicly reporting 84 group MIPS Quality measures as star ratings on profile pages and 148 group MIPS Quality measures in the PDC.
